Our ref: BrentfordStationCPZ/Review

Date: 7 September 2018

Dear Sir / Madam,

Review of the Brentford Station Controlled Parking Zone

I write in relation to a petition received by the Council from some residents of York Road requesting alteration of the existing CPZ times to counteract the increase in evening parking attributed to nearby residential developments and 'Match Day' parking during Brentford FC home fixtures.

Following receipt of that petition and having discussed the matter further with your local ward councillors, it has been agreed that a review of all roads within the Brentford Station CPZ area would be most appropriate as this would help determine whether there is wider support for changes to the existing CPZ.

The purpose of this review is to seek the views of those who live within the zone on the effectiveness, or otherwise, of the CPZ and whether improvements could be made to the scheme. Listed below are some of the issues and concerns that have been brought to our attention by residents and local Councillors. The attached questionnaire is based on these, and whilst we ask you to comment on these specific points, please also let us know of any alternative concerns you may have or suggestions on how the scheme can be improved.

Suggested issues for consideration

Has the CPZ improved the parking situation? – Do you feel the CPZ is having the desired effect of removing all day parking and increasing parking provisions for residents and their visitors? Alternatively, do you consider the parking controls have had a negative impact on parking in your road?

Operational times of the CPZ – The current operational times of the CPZ in the majority of roads are Monday-Friday, 9.30am-5.30pm. The CPZ was intended to remove all day, non-residential parking associated with local businesses and, primarily, commuters using Brentford train station. The aforementioned petition, however, requests an increase in the times to Monday-Saturday, 9am-8pm as per the operating times in Brook Lane North (part) and Layton Road due to parking issues in the evenings, attributed to parking from non-Brentford Station CPZ residents, and weekends, attributed to supporters attending Brentford FC home games. We would therefore like to know your views on the current operational times and, if you consider these to be ineffective, what alternative times would you prefer?

Residents should be reminded that Brentford FC are due to relocate to their new stadium towards the latter part of 2019, therefore, the introduction of match day restrictions may not be considered a necessity in this instance.

Any other concerns – The attached questionnaire relates to areas that are believed to be most relevant, however, it is recognised that there may be other areas of concern that have not been covered. If so, we would encourage you to highlight these issues on the attached questionnaire, which will then be considered once all responses have been received.

It may be that you are currently satisfied with the CPZ and would prefer the scheme to remain unchanged. Whether supportive of the current scheme or otherwise, I would strongly encourage you to complete the attached questionnaire which would help to provide a clearer indication of residents views at this time.

I would be grateful if you would return the completed questionnaire by 5 October 2018 at the latest in the pre-paid envelope provided (no stamp required). Alternatively you can complete the survey online via the following link: [XXXXXX](#)

Should you wish to discuss any matter relating to the CPZ or require further information please do not hesitate to contact me on the details shown at the top of this letter.

Yours faithfully,

Andrew Nye – Senior Engineer (Parking Management)
