Date: 24 October 2022

Dear Resident,

### **Twickenham Road, Isleworth – Cycle Improvements, Ivy Bridge to Linkfield Road**

We would like your views on proposals to improve cycling facilities in the above section of Twickenham Road, Isleworth. The proposed improvements aim to create a safer and more attractive route for cyclists.

#### **What are we proposing?**

The proposals are to:

- Upgrade the existing advisory cycle lanes to mandatory cycle lanes;
- Widen cycle lanes where space permits;
- Introduce pole cones (sometimes known as traffic cylinders – an example can be viewed on the consultation website) where space permits, to provide light segregation between cycles and motor traffic. Pole cones will be spaced to ensure access to the kerbside for loading activity and blue badge parking is maintained where required; and
- Provide additional cycle logo road markings at side road and signal junctions, alongside on-street parking bays and bus stops, and in the carriageway where space does not allow for cycle lanes to be marked, such as on the approach to pedestrian refuge islands.

#### **Why are we proposing this?**

Hounslow Council wants to create a healthy, accessible and enjoyable transport environment in the borough. We want to tackle poor air quality, and are committed to making cycling safer, easier, and more appealing for all.

To enable people who drive or use public transport to cycle, streets and cycleways must be well designed, clearly signed and continuous.

The proposals will compliment cycle improvements introduced between Busch Corner and Linkfield Road in 2020 to the boundary with London Borough of Richmond at Ivy Bridge, creating a continuous route for cyclists throughout the road.

## How to respond

Full details of this consultation, including a plan of the scheme and a short survey, can be found on our consultation's webpage: <https://haveyoursay.hounslow.gov.uk/traffic-and-transport/twickenham-road-south-cycle-improvements>

We welcome your feedback and would ask that you provide your feedback on the scheme by **Sunday, 20 November**. We would particularly appreciate feedback on any locations where you feel additional space may be needed for kerbside access.

If you require this information in an alternative format, please contact us by emailing [traffic@hounslow.gov.uk](mailto:traffic@hounslow.gov.uk) or calling 020 8583 3322.

## Next Steps

We're unable to respond directly to every respondent, however all feedback will be summarised and presented to your ward councillors along with our recommendations. The outcome of the consultation will be available to view on the council's website once a decision has been made, which is likely to be in Winter 2022/23.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'Florian Naejus', is displayed on a light blue rectangular background.
